## Introduction and Summary of FY2003 Statistics

The 2002-2003 edition of Iowa Public Library Statistics includes information on income, expenditures, collections, circulation, and other measures, including staff. Each section is arranged by size code, alphabetically by city. The totals and percentiles for each size code grouping are given immediately following the alphabetical listings. Totals for all reporting libraries are given at the end of each section.

There are 527 libraries included in this publication (16 non-reporting). The *Table of Cities and Size Codes* lists the libraries alphabetically and gives their size codes. The purpose of the table is to allow a user of this publication to locate information about a specific library.

The following table lists the size code designations, the population range in each size code, the number of libraries reporting in each size code, and the total population of the reporting libraries in each size code. The total population of the 527 libraries is 2,188,823. Population data is used to determine per capita figures used throughout the publication.

Size	Population Range	Number	Total Population
A	Less than 500	131	43,456
B	500-999	138	103,527
C	1,000-2,499	133	209,190
D	2,500-4,999	45	156,993
E	5,000-9,999	43	290,053
F	10,000-24,999	14	192,738
G	25,000-49,999	11	331,217
H	More than 50,000	9	801,271
I	County library	3	60,378

Library size codes are based on the jurisdiction population of the city, i.e. the population of the city which the library was established to serve. Population figures are from the 2000 U.S. Census.

Public library statistics are used at the local, regional, state, and national levels to compare library performance, justify budget requests, track library data over time, assist in planning and evaluation, and provide valuable information for grants and other library programs.

Each of the 50 states collects information according to guidelines established by the Federal State Cooperative System for public library data (FSCS). The information contained in the Iowa Public Library Statistics is based on definitions approved by FSCS. Iowa received the Kepple award from FSCS for timely and accurate data in FY03.

FSCS also provides state-by-state rankings for public libraries. According to the most recent data, Iowa public libraries rank as follows in comparison with other states:

The following table compares FY2002 and FY2003 data for Iowa libraries. (FY 2003 income and expenditures include \$3.7 million from Gates Foundation computer grants)

Category	FY2002	FY2003	% change
Total Income	81,420,900	89,708,482	9.2
Governmental Income	71,478,629	73,833,379	3.1
Total Expenditures	74,212,541	76,567,038	3.0
Collections	12,865,915	12,997,903	.1
Circulation	26,358,337	26,767,247	1.5

The data elements and definitions used to collect the information included in the Iowa Public Library Statistics are included in the *Public Library General Information Survey* section at the end.

## Iowa Public Library Statistics, 2002-2003

# Income

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Income section includes funding received from various government and non-government sources during FY2003. The income received per person is also listed.

## Iowa Public Library Statistics, 2002-2003

# Expenditures

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Expenditures section includes spending for library operations in various categories such as salaries and other staff costs, books and other materials, and other expenditures, such as supplies and plant operations. The amount spent per person is also listed.

## Iowa Public Library Statistics, 2002-2003

# Collections

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Collections section lists the number of total items available for use as of June 30, 2003, including print and non-print materials. The percent of the collection added and withdrawn during the year and the number of items per person is also listed.

## Iowa Public Library Statistics, 2002-2003

# Circulation

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Circulation section lists the number of times various types of library materials were checked out to library customers. The number of circulations per capita is also listed, as is the number of items loaned to other libraries (ILL Provided). The turnover rate shows how many times, on average, each item in the collection was checked out.

## Iowa Public Library Statistics, 2002-2003

### Other

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Other section includes information about staff full-time equivalents (FTE) and director hourly salary, as well as information about registered borrowers, library visits, reference transactions, hours, attendance at children's programs, and Internet usage.

## Part 7 - Output Measures #125-138

In collecting and reporting output measures, please follow the definitions and instructions provided in the Output Measures for Public Libraries, second edition, except the instructions concerning sample period. Use a one-week sample. Do not report annual figures in this section. If data is collected in two one-week periods, add the totals and divide by 2 to provide a one-week figure. In keeping with the recommendations of the Standards Committee, the State Library recommends that Output Measures surveys be conducted every 3 years. Report only the results of surveys conducted in the past year.
